## **Training**

Spring 2006, Spring 2008

Comprehensive Basic Life Support course. Certified in adult CPR, child and infant CPR, emergency basic first aid, and cognitive AED skills.

Spring 2004, Spring 2005, Spring 2006, Spring 2007, Spring 2008

Hazardous Waste Operations and Emergency Response (HAZWOPER) 8-hour refresher course. A yearly review of material covered in the 40-hour course.

Spring 2003

Hazardous Waste Operations and Emergency Response (HAZWOPER) 40-hour training course. Focused on identifying and working safely around hazardous materials.

Summer 2000

University of Arizona Archaeological Field Training Program. Five weeks of excavation, survey, mapping, artifact processing, lectures, and field trips. Excavations were conducted in east-central Arizona at the Bryant Ranch Site, a pueblo occupied between ca. AD 1250 and 1300.

Spring 2000

Field Mapping Course, University of Hawai'i Department of Geography. Eight to ten hours of mapping in field situations every Saturday for 15 weeks. Methods we learned included compass and pacing, compass and taping, plane table and alidade contour mapping, transit traverse, and GPS. The class concluded with a three-day project on the island of Hawai'i, in which transits and GPS units were used to produce a contour map of a 25-acre area of sub-alpine forest for TREE, a nonprofit environmental organization.

Summer 1999

University of Hawai'i Archaeological Field School at Kaniakapupu in Nu'uuanu Valley. Six weeks of fieldwork included archival research, mapping, photography, profiling, survey and excavation of the 19<sup>th</sup> century summer estate of King Kamehameha III.

## **Experience**

Spring 2006-Present

*Senior Archaeologist*, Garcia and Associates

Field supervisor, project manager, and principal investigator experienced in archaeological inventory survey, monitoring, data recovery, laboratory work, and report writing.

Spring 2003-Fall 2005

*Supervisory Archaeologist*, T.S. Dye & Colleagues, Archaeologists, Inc.

Directed archaeological inventory survey, monitoring, data recovery, and burial relocation projects throughout the state of Hawai'i.

Summer 2005

*Field School Director*, University of Hawai'i Maui Community College

Conducted an archaeological field training program in the remote valley of Wailau on Moloka'i Island. Eight weeks of fieldwork consisted of survey, plane table and alidade mapping, GPS mapping, photography, and excavation of wetland agricultural complexes and historic habitation sites. Trained 17 students and volunteers in archaeological field methods.

Spring 2005

*Lecturer*, University of Hawai'i Maui Community College

Instructor for Anthropology 290 (Heritage Sites in Archaeology) taught on Moloka'i Island. This 3-credit course consisted of classroom lectures focused on issues germane to

- practicing archaeology in Hawai‘i and had a fieldwork component that included survey and mapping in Kamalō Ahupua‘a.
- Spring 2002-2004  
*Archaeology Lab Supervisor*, University of Hawai‘i at Mānoa  
 Laboratory supervisor of undergraduate students enrolled in Anthropology 210 (Introduction to Archaeology). Duties included teaching students to catalog, photograph, and classify artifacts from Nu‘alolo Kai, Kaua‘i.
- Summer 2003  
*Teaching Assistant*, UH Archaeological Field School, Kohala Hawai‘i  
 Six weeks of fieldwork consisted of excavation and GPS mapping of portions of the Kohala field system, one of the largest dry-land agricultural complexes in the state. The field school was part of the Hawai‘i Archaeological Research Program (HARP) under the direction of Drs. Michael Graves and Thegn Ladefoged.
- Summer 2003  
*Field Technician*, Huahine Project, French Polynesia  
 Three weeks of fieldwork included excavation and plane-table mapping of *marae* on Mata‘ire‘a Hill, Huahine. This was a joint project involving Dr. Paul Wallin of the Kon Tiki Museum, Norway and Dr. Yosihiko Sinoto of the Bernice P. Bishop Museum, Hawai‘i.
- Summer 2002  
*Research Assistant*, University of Hawai‘i Department of Anthropology  
 Duties included artifact analysis and database management for a collection of over 7,000 artifacts from Nu‘alolo Kai, Kaua‘i.
- Spring 2002  
*Field Technician*, Sigatoka, Fiji  
 Two weeks of fieldwork assisting Julie Field on her dissertation research on ring ditch fortifications in the Sigatoka Valley, Fiji. Carried out archaeological survey, excavation, photography, and auto level mapping.
- Summer 2001  
*Field Technician*, Kohala, Hawai‘i  
 Assisted Dr. Michael Graves with a GPS survey of the extensive Kohala field system, an area in excess of 20 square miles which contains some of the best evidence of ancient dry land agriculture in Hawai‘i. Four weeks of fieldwork included survey, excavation, and GPS mapping.
- Spring 2001  
*Database Manager*, University of Hawai‘i Space Inventory  
 Assisted in compiling a database of all rooms in the University of Hawai‘i Mānoa campus. Duties included data acquisition and entry, field checking, and correcting data. Also reorganized and created databases for collections in the archaeology laboratory, including the mammal and fish bone reference collections, archaeological publications, and maps.
- Fall 1999-Spring 2001  
*Volunteer*, Bernice P. Bishop Museum  
 Assisted Dr. Susan Lebo in historic artifact analysis. Duties included sorting and cataloging artifacts from Palau and Hawai‘i and reconstructing and classifying Japanese ceramic vessels from Palau.
- Fall 1998-Spring 2000  
*Volunteer*, University of Hawai‘i Archaeology Lab  
 Helped with the analysis of artifacts from the Nu‘alolo Kai collection. Completed a paper each semester on this research.
- Fall 1996-Spring 2002

*Volunteer, Kamehameha Elementary School*

Worked closely with children of Hawaiian ancestry to promote their educational growth. This included reading to small groups of children, assisting curriculum development personnel, chaperoning field trips, and assisting in fundraising activities. Received the Kamehameha Elementary School's *Mahalo* Award for volunteer service for five consecutive years.

### **Additional Skills**

Proficient in a variety of word processing, database, drafting, photo editing, and GIS software, including MS Word, MS Excel, MS Access, MS PowerPoint, Jfig, Xfig, Adobe Photoshop, Adobe Illustrator, Adobe Acrobat Professional, GPS Pathfinder Office, and ArcView.
